MERSEY BASIN RIVERS TRUST

www.merseybasin.org

Dear council,

I would like to report that giant hogweed is growing in the following location

.....
.....
.....

I would like to exercise my right to use the community trigger as specified under The Anti Social Behaviour, Crime and Policing Act 2014.

It is my civic duty to inform you that the presence of this plant at this location is having a persistent and detrimental effect on the quality of my life and others living in my locality.

The presence of this plant at this location and its ability to spread up to 80,000 seeds per year is an act of unreasonable behaviour, as it has the potential to cause serious burns on human contact.

As the local enforcing statutory body I request that you take action on my behalf and issue a community protection order against the land owner to prevent him/her from allowing this dangerous plant to grow on their property.

Yours sincerely,

Signature
